

Rock On It

Written and Composed By: Anthony Holloway

Verse

I don't need a little blue box
Or some secret love to unlock
Don't need candles, or that champagne
Just a neat whiskey calling my name

Pre-Chorus

Pour it straight, that's how I like
Keep it simple, treat me right

Chorus

Don't even need a rock on it
Pour one back, let the whiskey hit
Crank that thing, long as it's country
Two-step on that floor, you next to me
This kind of night is a perfect fit
My hand in yours — don't even need a rock on it

Verse

Hot coffee waiting when I wake
That's the kind of spoiled I can take
Beside you on a two-lane drive
Steal a kiss at every red light

Pre-Chorus

Keep it easy, keep it true
Boy, I want this life with you

Chorus

Don't even need a rock on it
Country radio playing all the hits
Got me smiling riding shotgun
Sliding over closer just for fun
Ain't a single thing about this I'd quit
My hand on you — don't even need a rock on it

Bridge

Let the rest of 'em rush and race
We'll find heaven at our own pace
All that glitter can keep its shine
I just love the way you're all mine

Chorus

Don't even need a rock on it
Know what I want, wouldn't change a bit
Country radio playing low and slow
Barefoot spinning while the porch lights glow
That little dream life is where I fit
My hand around you — don't even need a rock on it

Outro

If you already bought one...
Sitting in that little blue box
Hell, Let's see if it fits
Go on, put that rock on it
